

## TRAFFIC CONTROL SERVICES

The **Barricade Company** provides the option of either a “Set & Leave Closure” or a “Monitored Closure,” designed and implemented to exceed both the Federal Manual on Uniform Traffic Control Devices (MUTCD) and individual governing entity specifications. The Barricade Company designs safe, easy to read, and cost-effective traffic control plans that are clear, legible, precise, and detailed in order to provide the permanent documentation that’s so critical in today’s public works environment.

- **Single and multiple lane closures**
- **Half street closures**
- **Full street road closures and detours**
- **Freeway closures**
- **Flagger set-ups, and more**

## FLAGGER SERVICES

All Barricade Company flaggers are OSHA and ATTSA-flagger certified and are committed to providing excellent customer service, which begins with a focus on the highest degree of safety for all workers on-site.

**Features:** All forms of flagging provided, including: Pedestrian flagging, special event parking, positive construction zone guidance, and any situation that might require clear and concise communication with the public.

## STEEL TRENCH PLATES

Protects both the trench and motorist public when roadwork is not active.

**Features:** Coated with specialized skid surface treatment, perfect for all weather conditions, including rain and wet roads.

## PEDESTRIAN TRENCH PLATES

Designed for any situation that requires you to maintain ADA-compliant pedestrian travel.

**Features:** Lightweight glass-reinforced composite, slip-resistant surface, no equipment needed to deploy.

## FIXED-FOOT STEEL PEDESTRIAN RAIL

Perfect for use on construction sites, as well as for pedestrian traffic management and special events.

**Features:** Simple interlocking design with sturdy fixed feet for quick set-up, lightweight, easy to transport.

## WATER-FILLED BARRIER RAIL

Great for use on and off construction sites, creating a strong fortification when properly filled.

**Features:** Easy to move when empty, fast to deploy with easy-to-link sides.
